PROGRESS REPORT

For the End of Jestha 2077

Submitted by

Antivenom Production And Research Center Nepal

Sarlahi, Nepal

INTRODUCTION

Snake bite is considered as a well-known life threatening medical emergency commonly seen in farmers, plantation workers, herders, fishermen, snake restaurant workers and other food producers. Snakebite take a heavy toll of human lives. It is due to lack of adequate infrastructures, trained health workers, logistics challenges of antivenom as well as traditional practices in the rural communities that leads to delayed treatment of snakebites cases. Also, exact magnitudes of problem and mortality from snake-bite are very difficult to estimate due to serious misreporting.

So far, 89 snake species have been recorded in Nepal. Among this great diversity of snakes, we know with certainty of 17 species of snake that are found in Nepal have the front-fanged type of venom apparatus, and thus are considered highly venomous and dangerous (Whitaker and Captain 2008). The Nepalese poisonous snakes are represented by only two families: Elapidae and Viperidae. Around 200 people die in Nepal each year due to snakebite. A hospital-based retrospective survey conducted in 10 hospitals of eastern Nepal reported 4078 cases of snakebite (407/ hospital/year) including 379 with signs of envenoming. The mortality in envenomed patients varied considerably among the centers from 3% to 58% (Mohapatra et al 2011). The ultimate market source of antivenom for Nepal is from India and the state itself has been suffered from limited supply of the venom. The study reveals that no any significant initiations are being undertaken in spite of its high potentiality in Nepal for the production of the antivenom.

In this context, Jhalanath Khanal health science foundation has initiated the project for Production, Storage and Distribution of Snake Antivenom Immuglobulin in Nepal by the support of Government of Nepal, Province no. 2 Government of Nepal, Lalbandi municipality with envisions that it will be a milestone for saving the lives of against the limitation of the antivenom.

The foundation has already conducted different formal and informal interaction and meetings with national and international clinical experts, academia and concerns regarding the proposal developed a comprehensive business plan for the said project. For instant, Foundation has received grant from the Government of Nepal towards cost of Detail study and Research for the project of Production, Storage and Distribution of Antisnakevenom and intends to apply the

proceeds of preparing procurement documents for building construction, land purchase, lab setup and consultation, meetings, interaction and workshops with different stakeholders.

OBJECTIVES OF THE GRANT

- i. To conduct research activities related to snake farming, horse farming, venom quality, extraction and antivenom production
- ii. To purchase land and to construct building for project office
- iii. To establish snake farming house
- iv. To setup lab for venom extraction and antivenom production

TECHNICAL PROGRESS

1. Notices have been issued for
 - a. Staff hiring
 - b. Laptop, printer, projector and accessories purchase
 - c. Furniture purchase
 - d. Notice of Roaster of Expert
 - e. Notice of Screening List
 - f. Notice of land
 - g. Notice of vehicle (four wheel drive/jeep)
2. Staffs for the project like Project Director, Research officer, Account officer, Office management associate, Admin assistant, Field supervisor and Official helpers have been hired and further staffs will be hired according to the need of the project office, Sarlahi, Lalbandi
3. Roaster list of experts has been prepared: Procurement specialist, Herpetologist, Environment expert, Research expert, legal expert and health expert
4. Roaster of supplier/ vendor has been listed out.
5. Agreement of financial proposal between procurement specialist
6. Furniture purchased according to procurement Act 2063
7. Drawing, Design, Specification and master plan for the detailed project report has been accomplished.
8. Completion of first step of detailed project report draft

9. Specific procurement plan for land purchase has been done according to Public procurement Act 2063 and other laws and by law
10. Further research activities on snake farming, horse farming, venom quality, extraction and antivenom production is under the process
11. Public conference and focused group discussion is going to be organized.
12. The documentation of all the process of land procurement is made by **Er. Ashok Kumar Jha** (specialist of land procurement hired by project who is retired from 1st class officer of Nepal government from the position of procurement specialist) and **Keshab Prasad Dhakal** (specialist in all the procurement process hired by the project who is retired from 1st class officer of Nepal Government from the position procurement specialist) and decision of the land procurement is taken under the consideration and co-ordination of Lalbandi municipality and all the ward of Lalbandi municipality
13. Bidding process of land is complete now project is doing the technical, legal and other necessary appraisal regarding the land for the procurement of land.

FINANCIAL PROGRESS

Still Many Payment Regarding the setup cost, procurement of laptop, printer, computer and other electronic items are pending though delivery has been done because of the lockdown situation held in country. Altogether Around 30,00,000 (in rupees thirty lakhs) rupees is spend by the project which include of payment of 1st Step DPR draft, payment of some of the expert hired in their respective area, payment of employee salary, payment for the management cost, hire of vehicle for this economic year for the official purpose.

CONCLUSION

Procurement committee and board meeting is programmed to be held on weekly basis. Likewise consultation, meetings, interaction and workshops with different stakeholders for the first phase of the project have been completed. On the other hand, execution of the first phase of project work is successively running and the organization is looking forward to operate financial transactions.

Anath khana Swasthya Bigyan Pratisthan Nepal
 Project Title: Antivenom Production and Research center Nepal
 Project Period: 5 years
 Site: Sarlahi district, Province No.2 of Nepal
 Budget Breakdown FY- 2076-077 (1st year)

	Description	Type of Unit	Total Quantity	Unit Cost (NPR)	Days/Months/Years	Effort %	Total Costs (NPR)
First stage is the contract for and preparation of snake farms for the immobilization of 20 snakes, mainly horned or sheep, from which the active plasma will be obtained.							
1	Program Inputs and Supplies to set-up serpentarium with enough number of snakes						
1.1	First Step Detail Project Report (DPR) Snake Farming and venom milking process	Time	1	10,000,000	1	1	10,000,000
1.2	Second step Detail Project Report (DPR) Of antsnake venom Production and marketing	Time	1	20,000,000	1	1	20,000,000
1.3	Third Step Detail Project Report (DPR) of Institutional and Treatment center Development	Time	1	8,000,000	1	1	8,000,000
1.4	Fourth Step Detail Project Report (DPR) of Focal Group Development	Time	1	8,000,000	1	1	8,000,000
1.5	Development of EIA	Time	1	3,000,000	1	1	3,000,000
	Sub Total						49,000,000
2	Expert Fee Research and Awareness Program						
2.1	Conduct workshop with different stakeholders/orientation on detail Project Report	Time	1	600,000	1	1	600,000
2.2	Study and Research of Snake Farming, Handling and Milking Process	Time	1	7,500,000	1		7,500,000
2.3	Study and Research of Venom Quality Assurance and export of venom to the ASV Production Plant	Time	1	10,000,000	1		10,000,000
	Study and Research of Snake Bite problem, condition and current status of province no. 2	Times		4,000,000	1		4,000,000
2.4	Study and Research of Antivenom Production Process and international market analysis of ASV	LS		15,000,000	1		15,000,000
	Expert Fee	Ls		3,000,000			3,000,000
2.6	Exposure and observation visit to manufacture company/institutions of snake antivenom immunoglobulins	Visits	1	2,000,000	1	1	2,000,000
2.7	Awareness and Street Drama Program to the focal Group	Time	1	1,500,000	1		1,500,000
	Sub-total						43,600,000
	Fixed cost for preparation and storage of Snake venom						
2	Land purchasing and setup	Bigha	10		1	1	67,077,710
2	Purchase of Light vehicle	Number	1	4,500,000	1	1	4,500,000
2	Project office setup cost	LS		15,00,000			1,500,000
2	Purchase of moter Bike	Number	2	300,000	1	1	600,000
	Sub-total of fixed cost for preparation and storage of snake venom						73,677,710
3	Office instrument/equipment
